

Tei Fu Information

"Tei-Fu Essential Oils" is a formula revised and perfected by a noted Chinese Herbalist some fifty years ago, based on an ancient formula dating back more than one thousand years to the era of The Tong Dynasty. For years, this Herbalist used his own concoction of essential oils obtained from a variety of herbs, including a few rare herbs known only to him. This blend of oils was not for sale. It was one of his secret formulas for those who journeyed to him for help. The keeping of secret formulas within families and the unwillingness to commercialize a popular formula are typical traits of the Chinese of the older generations.

Nature's Sunshine Products first became aware of the essential oils formula through a Chinese employee on its research staff. Initially, fellow workers were skeptical of the mysterious blend of oils. But the researcher persisted, continually stressing the immense value of the product. One by one, employees began to try the essential oils for themselves and it wasn't long before everyone at Nature's Sunshine was using the product and enthusiastically telling their friends about it. The potential for essential oils seemed so promising that the President of Nature's Sunshine made a special trip to Taiwan to investigate the matter. Together with the Chinese researcher, he was successful in negotiating the exclusive rights to market the oils in the United States. And, this is how little known Tei-Fu Essential Oils found its way to Nature's Sunshine Products.

Tei Fu Oil or Tei Fu Massage Lotion

DON'T GO ANYWHERE WITHOUT IT! (I always keep a bottle in my purse)
